Safety Control Seals
without numbers
#484108

Safety Control Seals - #484107 & #484108

The Omnimed Safety Control Seals with Numbers have a brightly colored plastic body with a flexible locking piece which threads into the body. These seals are designed for a narrow slot opening. Each is imprinted with a unique tracking number and can be broken without tools. Seals can be used on cabinets where contents need to be controlled. They provide a clear visual signal and also serve as a deterrent to prevent unauthorized cabinet access. Seals are sold in 100 count packages and come in red, green or yellow.

- Brightly colored red, green or yellow plastic seals
- Imprinted with unique numbers for tracking
- Breaks without the use of tools
- Visual signal to control cabinet access
- 100 per package
- 90 Day Warranty
